PROFILE

UCL MSc Entrepreneurship graduate (Sep 2026), a high-ownership generalist with hands-on experience across content creation, campaign execution, market research, and partnership building. Built a sponsorship pipeline from zero, ran a live paid campaign end to end, and taught myself to build a website independently using Framer and Claude Code. Comfortable with ambiguity, data, and cross-functional collaboration, and quick to pick up new tools and problems without a fixed playbook.
